

SPECIAL SEMINAR

“Immunity: The Key to Wellness”

Understanding and Protecting its Power

***** **SPECIAL JOINT SEMINAR** *****

(Only in Honolulu)

Upon many requests, we are presenting a very special Joint Seminar in Honolulu. At this first seminar in 2010, Mr. Shinjo will be joined by Dr. Bennett to teach us how we can improve and maintain healthy bodies by keeping our immune system strong. To do that we need to understand and protect our immune power. We invite all to attend this free seminar.

Dr. Bennett, an internationally known Immunologist and Infectious Disease Microbiologist, is a vital member of 4Life's Health Sciences Advisory Board and has also served as an advisor for the FDA and USDA. In his lecture, "**Immunity: The Key to Wellness,**" he will give us important scientific information on how we can enjoy optimum health by keeping a strong immune system.

Dr. Richard Bennett
Guest Speaker

Mr. Tadashi Shinjo
Presenter

Mr. Shinjo from Okinawa is the person responsible for introducing Transfer Factor to Japan almost 10 years ago. Since then, he has been the No. 1 distributor in Japan. He travels all over the world to share many amazing stories about the many people who have received the benefits of 4Life Research's products. (Translated in English)
